ABOUT TOWN.

The Laredo Times of recent date says: Arthur Dear, formerly of Corpus Christi, has been appointed assistant registry clerk in the Laredo postoffice and entered today upon his duties as such.

The Cuero Star of last Friday says: "Miss Blanche Kingsbury arrived this afternoon from school at Washington D. C., accompanied by her father, M. B. Kingsbury, who met her in New Orleans and her mother, brother and aunt who went to Houston to meet them. Miss Blanche will doubtless enjoy her much needed rest, deservedly earned, judging by the excellent reports received by her parents from the college."

Of course, THE HERALD appreciates the compliment paid it by those of our well to do citizens who do not subscribe for the paper, yet exert themselves to borrow it regularly from someone else and read it. It is indeed a kind and benevolent act to read a paper which is not worth paying for. And yet, for the sake of appearances, it would seem that many of these kind readers would like to have their local paper left at their own door every day. It does make one appear more public spirited, you know to try and help along local enterprises.

Keep the Balance up.

It has been truthfully said that any disturbance of the even balance of health causes serious trouble. Nobody can be too careful to keep this balance up. When people begin to lose appetite, or to get tired easily, the least imprudence brings on sickness, weakness, or debility. The system needs a tonic, craves it, and should not be denied it; and the best tonic of which we have any knowledge is Hood's Sarsaparilla. What this medicine has done in keeping healthy people healthy, in keeping up the even balance of health, gives it the same distinction as a preventive that it enjoys as a cure.

Its early use has illustrated the wisdom of the old saying that a stitch in time saves nine. Take Hood's for appetite, strength, and endurance.

Looking up State Lands.

Laredo Times.

Mr. J. J. Cocke, an expert in land matters, is here examining our county records in the interest of the state. About three years ago the legislature authorized the employment of two such experts. Their business is to look up the school lands, and see that the state is receiving its due rental for all of its that is being used by ranch owners. While in this section of the state, Mr. Cocke will look into the old Spanish land grants, and all the facts to the various transfers that have not a record in Austin will be reported. There may be a great deal of litigation resulting therefrom, as the state shows a disposition to question the right of all holders whose grants did not receive confirmation at one of the various visits to this frontier of the governor generals of New Spain, as Mexico was known when it was a province of the Spain; or whose title has not a proper record in the land office at Austin. To afford opportunity to cure the defect in the title of a great many lands owners between the Nueces and Rio Grande was object of the law on that subject passed by the recent legislature, and which was vetoed by the governor because he did not believe that its provisions were sufficiently ample. Mr. Cocke was collector of customs for the Brownsville district during Mr. Cleveland's first term, but is at present a resident of Cuero. He will be here for some time engaged in his very tedious job.

Mexican National changes.

The following Mexican National railroad officials visited Corpus Christi last Saturday, coming down the night before in their special car from Laredo: General Superintendent Dickson and Superintendent Galbraith, of the northern division. From what The Caller could learn it will not be a great while before the road is made a standard gauge. It is also reported a new time card will be put on here in about two weeks. Other changes may be expected. This train, it is rumored, will leave here about 5:45 in the morning.—Caller
